

# ***Vermilion Minor Hockey 2020-2021 Registration***

Registration for the upcoming hockey season is now open. Please read through this letter as there are some changes to our registration process this year.

Registration is for **returning** local members ONLY and will remain open until July 15,2020. After this time players who have previously registered with our association from our town and have not yet registered online AND have submitted their cheques will be considered **late** and will be charged a **\$100 late fee**.

You must complete the online registration **and** have your cheques handed in by July 15,2020 to be considered registered. The online link for registration will be provided.

Every family must also have completed the online Respect in Parent course. This course now has a 3 year expiry date. Players will not be allowed on the ice unless one parent completes this course and it is linked to their account. Information will be provided on how to check if your Respect in Sport course is current or needs to be taken again.

This year we would like to offer a 10% discount for those who complete their online registration and pay their registration fees in full with a cheque date Oct 1,2020 by the registration deadline of July 15,2020. This discount will only be offered for this form of payment.

The on line payment through Pay Play will NO longer be available. How ever we will be offering an e transfer option to those who would like to make monthly payments. Monthly payments will be due by the end of every month starting July 31 to December 31, 2020. Any late payments will be subject to an extra \$20 charge. Once you have completed the online registration you will have to stop and see Jodi to arrange for your e transfer options by July 15,2020. In the event that Hockey does not happen this year refunds will be granted if you choose to start this e transfer option.

This is a very, very long registration letter but hopefully if you take the time to read it through it should help with navigating through the registration process.

**The last page has this year's hockey fees as well as payment options.**

We would like to let everyone know that even with the uncertainty of the upcoming hockey season we still need to move forward with the preparation and planning stages to make certain we are ready for the up coming season. We know that online registration and getting your cheques in might not seem all that important to you until you know for certain that there will or will not be hockey this year. The executive as well as many others are still working hard with preparations and we are asking for you to please get your children registered so we can have a better understanding where we will be siting for numbers and team sizes.

After July 15<sup>th</sup> we will be opening up registration to players from other associations.

Also, when you are dropping your cheques off with Jodi. This year she will have an information form for you to fill out quickly.
